PROJECT: Maidenhead extension and refurb

DESIGN SUMMARY

The clients were keen for an improvement of the somewhat tired looking exterior and wanted to make better use of their interior layout.

LAPD Architects worked closely with the clients to rationalise the layout, creating a modern and spacious repositioned entrance area—acting as a feature to the hallway and allowing natural light to fill the space.

We also designed an extension to the rear that provided new space to house the large open plan kitchen/living/dining area with improved visual and physical links to the garden. This was perfect both visually and functionally for the clients who wanted a viable space in which to entertain guests and socialize.
