PROJECT

CE Infants School—Remodelling of Admin Offices, ICT Suite and Playground Spaces

DESIGN SUMMARY

With the appointment of a new Head and an increase in admin staff, lapd were appointed to remodel the existing school to accommodate the new changes.

Lapd were able to design, agree, tender and complete the project from June to August. Lapd advised on the consultants and legislation that the school had to follow whilst maintaining the fast nature of the scheme. With a governor background, lapd know the processes within schools to realise projects through internal and external approvals.

The remodelled offices are working very well and a new private enclosed ICT / meeting room has been created within the volume of the existing school hall, providing space that can also be used for one to one tuition and ppa time.
