PROJECT

CE Infants School—Remodelling of Classrooms, New Canopies and External Playground Spaces

DESIGN SUMMARY

With the change for 4-year old provision and an increase of pupil numbers, lapd assessed the existing school building and external spaces.

By remodelling space that was already there and adding a modest extension; the scheme provided the classroom area that was required for 45 children and extended playground facilities into an area of previously overgrown land.

The scheme was completed in time for the new academic year and larger intake.

The staff find the new environment ideal for teaching and are focusing on further developing the released land to form a sensory garden.
